

3. Feature Selected: Sidebar Layout on Collapsed Menu Click (Desktop View / Responsive Layout)

Issue Identified:

A visible line appears between the sidebar and main content when the menu is collapsed.

Each sidebar item has an unnecessary scroll, making it look messy and unpolished.

This layout causes a cluttered and broken UI, making the platform feel unprofessional.

Suggested Improvement:

Remove the extra scroll from individual sidebar items unless absolutely necessary.

Fix or hide the separator line to maintain a clean and seamless layout.

Ensure the sidebar adjusts properly when collapsed and expands without glitches.

Why This Helps:

Provides a cleaner, more modern layout.

Improves the user experience, especially during navigation.

Polishes the platform, making it feel professional.

```
<!DOCTYPE html>
<html lang="en">

<head>
  <meta charset="UTF-8" />
  <meta name="viewport" content="width=device-width, initial-scale=1.0" />
  <link rel="stylesheet" href="style.css" />
  <title>3</title>
</head>

<body>
<div class="sidebar">
  <div class="menu-item">Dashboard</div>
  <div class="menu-item">Settings</div>
  <div class="menu-item">Logout</div>
</div>

</body>

</html>
```

style.css -

```

/* Sidebar layout */
.sidebar {
  width: 250px;
  background-color: #333;
  padding: 20px;
  overflow-y: auto; /* Remove scroll for individual items */
}

.sidebar .menu-item {
  padding: 10px;
  color: #fff;
  border-bottom: 1px solid #444; /* Optional, for better separation */
}

.sidebar .menu-item:hover {
  background-color: #555; /* Hover effect */
}

/* Remove the separator line */
.sidebar.collapsed {
  border-right: none;
}

```
