

1. Feature Selected: Navigation Header / Logo Issue Identified:

The logo text size is too small, making it less noticeable and harder to read, especially for first-time visitors.

Suggested Improvement:

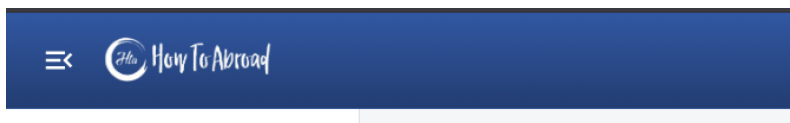

Increase the font size of the logo text slightly to make it stand out more.

Ensure it remains responsive and looks balanced with the rest of the navbar items.

Why This Helps:

A more prominent logo improves brand visibility and helps users recognize the platform quickly.

Enhances the overall visual hierarchy and professionalism of the header.
